

## Career and Technical Student Organizations

Here at the high school we have many student organizations ready to recruit! A few of the organizations are very active and are always looking for new ideas, challenges, skills and ways to improve/expand the organization.

The student organizations will help build your resume, network with other students, compete, travel to places, and get your foot in the door to your career!

### Future Business Leaders of America

Adviser: Ms. Jimmy  
Location: B-21  
Students interested in business.

Adviser: Ms. Salabiye  
Location: B-23  
Students interested in health occupations.

### FFA

Adviser: Ms. Lee  
Location: F-20  
Students interested in agriculture.

### Skills, USA

Adviser: B. Tso  
Location: V1C  
Students interested in auto, welding, drafting, culinary arts, cosmetology, Audio/Visual/TV, Heavy Equipment, Electronics, Construction Tech

## Should I Consider Enrolling in a Career & Technical Education Program?

1. Are you seriously thinking about trying to find a job as soon as you leave high school?
2. Do you prefer learning through activities and acquiring general skills that will help you no matter what occupation you work in?
3. Would you be able to learn reading and math skills more easily if you could see how people use those skills in their work or within the real world?
4. Are you interested in work-based learning rather than book-based learning?
5. Are you interested in participating in a student organization that develops leadership skills?
6. Do you plan to go to college and would like to earn college credit while in high school?

**If you answered yes to most of these questions, ask your guidance counselor for more information about the Career and Technical Education programs that are available at your school.**

**Keep adding tools to your tool belt in CTE!**

## CHINLE HIGH SCHOOL Career & Technical Education

To be successful, the first thing to do is fall in love with your work.

— Sister Mary Laurretta

\* Indicates the courses offering DUAL ENROLLMENT (College Credit)

### What is Career and Technical Education and what can it do for me?

Career and Technical Education (CTE) includes a wide variety of programs that are designed to equip you with work and life skills. As a career and technical education student, you can explore career options, gain insight into a number of fields, prepare for a wide range of occupations, retrain for new jobs, and learn how to improve home and family life.

Employers today are seeking workers with:

- SKILLS
- Adaptation to technology
- Employability Skills
- Work Ethics
- Leadership

The CTE Classes offer classroom instruction, laboratory work, work-based learning, and student organization.

After high school, many students continue on to post-secondary schools such as College, Universities, Military, Technical Schools, Career Schools, or work field.

CTE courses give you the real-world experience to integrate your academic studies. The trait from your CTE program will be beneficial in your academic curricula. Come see our teachers and visit the shops, classrooms, see the equipment used in the career field.

Plan for your future
